PETSAVER PROGRAM OVERVIEW

The PetSaver™ Program covers the following topics:

Restraining & Muzzling

Any pet that is in pain or is going to be moved into pain, can and will bite.

Primary Assessment

In the first 15-25 seconds of you being on the scene you will know what to do and what actions to take.

Rescue Breathing

The pet patient had a heartbeat but is not breathing

Canine & Feline CPR

The pet patient has no heart beat and is not breathing.

Choking Management

Conscious Choking, Unconscious Choking (Witnessed & Found)

Bleeding & Shock Management

Restraint, Muzzle, Elevation, Direct Pressure, Pressure Points, Immobilization, Shock Management & Transportation.

Snout-To-Tail Assessment for Injury & Wellness

A deliberate and systematic assessment from the snout to the tail of the pet with intent and purpose looking for any injuries the pet does not present to you or for wellness to create a base-line of your pet's health.

Assessing the Pet's Vitals

If you know what is normal for your pet then you will be able to quickly recognize when your pet is presenting not-normal.
